

Transformative Art & Architecture

International Anthroposophical Training Initiative

Weekend Seminar with Johannes Schuster
at the Michael Centre Warranwood 3134

The Architecture of "Universal Beauty" and the 4 Ethers as Bridge between Spirit and Matter

This introductory workshop is a stand alone part of a larger course offered internationally within the *TRANSFORMATIVE ART & ARCHITECTURE TRAINING INITIATIVE*. It offers an introduction to Transformative Architecture and to Anthroposophy, as well as touching on the deeper spiritual currents underlying humanity at our present times.

As such it may be of interest to architects, artists, teachers and anyone interested in a spiritual perspective on life, creativity and form creation.

- What is the difference between Organic and Anthroposophic architecture?
- What is "Universal Beauty"?
- What is "Transformative Art & Architecture" and how can we create it?
- What can the 4 Ethers teach us about the connections between spirit and matter?
- What is the fundamental challenge of our time and how do we respond to it?

Over the two days and one evening we will ponder such as the above questions and hopefully gain some theoretic as well as practically useful insights into the spiritual currents underlying Art & Architecture and the deeper challenges of our time.

Johannes Schuster

Johannes was the founding class teacher and subsequent administrator of the Little Yarra Steiner School, whose buildings he designed and project managed during the first two decades of the school's establishment phase. He now works in Australia and internationally as *Organizational Development Consultant* to Waldorf Schools and as *Biosculptural-Architectural Consultant* to schools and other organizational and private clients.

In 2016 Johannes founded the *TRANSFORMATIVE ART & ARCHITECTURE - INTERNATIONAL ANTHROPOSOPHIC TRAINING INITIATIVE* within which he has been teaching courses and seminars in Australia, Europe, South East Asia, China and South America.

Some Testimonials from the recent seminar at the Little Yarra Steiner School:

Seminar was inspirational, integrative and informative on many levels. I would recommend it to any genuine seeker of truth and healing. (Keith)

Inspiring, informative and enlightening. Delivered in such a way that provided insight in areas I was unaware of. The increased awareness gained has been transformational. With much gratitude, (Sandy)

I now have the language to articulate my requirements for a design brief to achieve the outcome I want from an architect/designer or builder. (Corey)

Johannes’ Transformative Architecture Workshop weekend was a fascinating journey through the world(s) of Anthroposophy and how it embraces and relates to us today. Although a very intensive subject, Johannes taught clearly and in a manner that suited my inquisitive mind and learning style - aligning the Macro into the Micro and explaining the relationships that connect us all in each area of our lives. . (Ty)

As the first time I had heard about Anthroposophy and many of the concepts therein, I appreciated how Johannes was open to questions and happy to clarify. And on the Sunday afternoon Johannes brought everything together to demonstrate how each of these relationships can be applied to form a template for creating Universal Beauty - forever changing how I see the world and all it’s creations, past, present and future. I highly recommend this weekend workshop to anyone wanting to explore & delve into the world(s) of Anthroposophy. Thank you Johannes, I would be very interested to attend your next Melbourne 10 day course. (Ty)
